

About Arcmont

Arcmont Group is a trusted provider of professional services and reliable products. We bring together a team of industry experts, skilled professionals, and cutting-edge technologies to deliver superior solutions to our clients. With years of experience and a deep understanding of the challenges faced by various industries, we are well-positioned to address your specific requirements and deliver results that matter.

MACHINING CONSUMABLES

WELDING ELECTRODES

Choose from a wide selection of electrodes suitable for different welding processes, including stick welding, MIG welding, and TIG welding. Our electrodes deliver exceptional arc stability, strong welds, and excellent slag control.

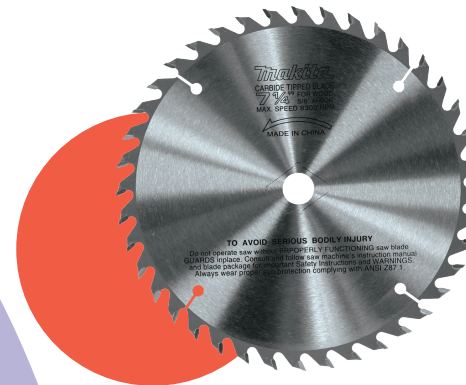

ABRASIVES

Achieve superior surface preparation and finishing with our high-quality abrasives. We provide cutting discs, grinding wheels, flap discs, and more, all designed to optimize efficiency and deliver outstanding results.

CARBIDE CUTTING TOOLS

Precision is key in steel fabrication, and Arcmont's carbide cutting tools deliver outstanding results every time. Our selection includes carbide inserts, carbide burrs, carbide end mills, and carbide saw blades. These tools are engineered with precision-ground carbide tips that provide exceptional hardness, wear resistance, and heat resistance.

CUTTING TOOLS

Our range of cutting tools includes drills, saw blades, and other precision instruments. These tools are engineered for accuracy, reliability, and extended tool life, ensuring smooth and precise cutting operations.

MACHINING CONSUMABLES

HAMMER UNIONS

Arcmont provides hammer unions that are approved and used by major service companies, drilling contractors, and operators around the world. All connections are clearly marked to show the nominal size, figure number, working pressure, and service. Mismatch of hammer unions is an unsafe practice. All components are subjected to rigorous inspection checks throughout the manufacturing process to ensure a quality product every time

CARBIDE INSERTS

Our carbide inserts are designed for turning, milling, and drilling operations. With their high cutting speeds and extended tool life, you can achieve precise and efficient metal removal, resulting in superior surface finish and reduced downtime for tool changes

CARBIDE BURRS & END MILLS

When it comes to milling steel, our carbide end mills are your go-to solution. These cutting tools provide exceptional rigidity, allowing for high-speed machining and precise contouring. With Arcmont carbide end mills, you can achieve accurate cuts, reduced chatter, and improved overall machining performance

LUBRICANTS & COOLANTS

Enhance your machining and fabrication processes with our high-performance lubricants and coolants. Our products reduce friction, increase tool life, and improve overall efficiency, resulting in optimal performance.

PIPING & FITTINGS

We at Arcmont are aware of how crucial pipes and fittings are to the oil and gas field sector. We provide a wide selection of premium pipes and fittings that are especially created to satisfy the stringent demands of oil and gas field operations. Our products are renowned for being dependable, long-lasting, and compliant with industry requirements.

PIPES

FLANGES

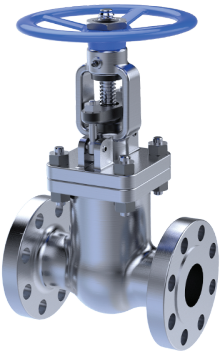

FITTINGS

GASKETS

We provide a wide selection of valves that are especially made to suit the high standards of the oil and gas field sector. The safe and effective operation of pipelines, tanks, and processing systems is dependent on valves for controlling the flow of fluids. Our valves are renowned for their dependability, toughness, and adherence to standards in the industry.

POWER TOOLS

We are aware of how crucial dependable and effective power tools are to the construction and oil and gas industries. We provide a wide selection of power tools that have been especially created to satisfy the particular needs of these industries. Our power tools are renowned for their dependability, effectiveness, and ergonomic design, which enables experts to complete jobs precisely and successfully

Prioritize the safety of your workforce with our premium safety equipment, including protective gear, welding helmets, gloves, and more. We understand the importance of a safe working environment and provide products that meet rigorous safety standards.

We acknowledge how crucial it is to put safety first in a variety of industries, including oil and gas field activities. We provide a wide variety of personal protective equipment (PPE) that is intended to offer workers in dangerous areas the critical defense they need. Our PPE options have been carefully chosen to meet strict safety requirements and guarantee the welfare of your personnel.

OUR INDUSTRIES

Streamlined Communication

24/7 On-Site Support

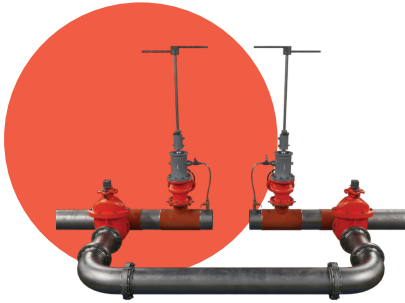

Quick, Leak-Free Setup

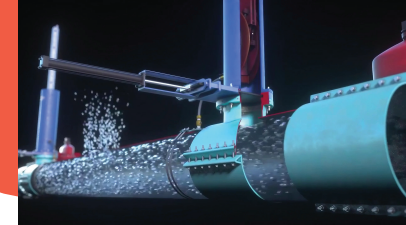

Cost-Effective Solutions

ADVANCED ON-SITE SOLUTIONS

HOT TAPPING

Expanding Possibilities Effortlessly create new connections to live pipelines without operational disruptions. Arcmont's expertise and advanced equipment offer safe, efficient expansion, modification, or repair

LINE STOPPING

Control and Safety Temporarily halt pipeline flow for maintenance without interrupting operations. Our experts ensure leak-free seals and optimal safety during crucial procedures

PIPE FREEZING

Targeted Maintenance Maintain, repair, or modify specific pipeline sections without system-wide shutdowns. Our controlled freezing technique guarantees uninterrupted operations, reducing risks and expenses

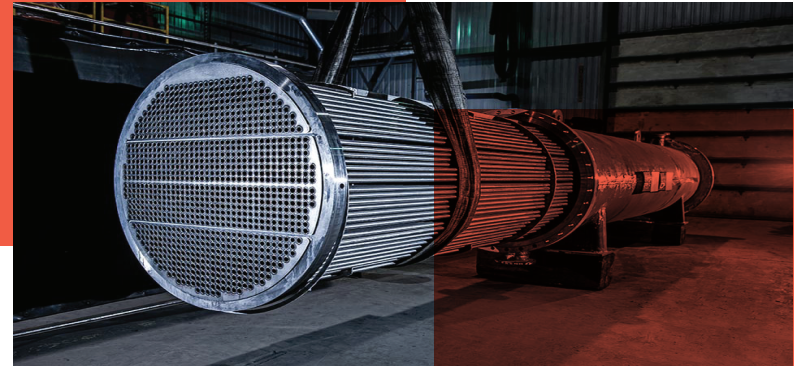

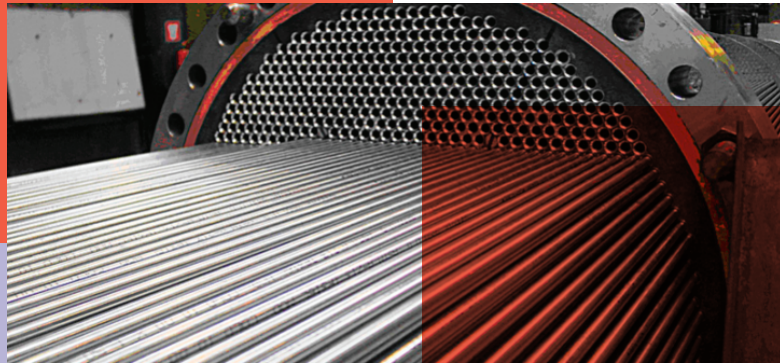

COLD CUTTING

Control and Safety Temporarily halt pipeline flow for maintenance without interrupting operations. Our experts ensure leak-free seals and optimal safety during crucial procedures

RE-TUBING : ENHANCING EQUIPMENT EFFICIENCY

Unlock the potential of your heat exchangers, boilers, and condensers with Arcmont's Re-Tubing solutions. Our services optimize efficiency and prolong equipment life, providing a cost-effective pathway to peak performance.

**Commitment to
Sustainability**

YOUR PARTNER IN SUCCESS

Arcmont Industrial Solutions is more than just a supplier of consumable products. We strive to build strong, long-lasting relationships with our customers, acting as a trusted partner in your success.

When you choose Arcmont, you benefit from

- Expert guidance in selecting the right products for your specific applications
- Ongoing technical support and troubleshooting assistance
- Competitive pricing and flexible payment options
- Consistent product quality and performance
- Timely deliveries to keep your operations on track
- Collaboration on process improvements and cost-saving initiatives
