About Arcmont

Arcmont Group is a trusted provider of professional services and reliable products. We bring together a team of industry experts, skilled professionals, and cutting-edge technologies to deliver superior solutions to our clients. With years of experience and a deep understanding of the challenges faced by various industries, we are well-positioned to address your specific requirements and deliver results that matter.

HVAC Solutions

- Turnkey HVAC design and build contracts for all types of projects including but not limited to residential complexes, commercial buildings, schools, restaurants, warehouses, factories and laboratories.
- Variable Refrigerant Flow Systems (VRF)
- Packaged units
- DX Ducted Split units
- Cooling Towers
- Energy Transfer Stations complete with heat exchangers, pumps, etc.
- Fresh Air Handling Units (FAHU) and Heat Wheel Recovery
- Complete Chiller Systems inclusive, pump rooms, chilled water piping, valve package assembly, flushing, chemical dosing system, and relate building management systems (BMS)
- All types of GI and PI ducting distributions and installations, including fire rated and phenolic ducting.
- Sound attenuation and anti-vibration solutions
- Industrial extraction and ventilation systems.
- Smart Thermostat Installation.
- Retrofitting and upgrades of existing systems for improved energy efficiency.
- Preventive and routine maintenance and repairs to ensure optimal system performance and longevity.

WE BUILD SYSTEMS THAT LAST

MEP Solutions

- Engineering (Design & Product Selection)
- Procurement as per the Approved Material List
- Taking Approvals from the Various Authorities
- Installations of Electrical systems like, MDB's, LV Panels, SMDB's / KWH meter Cabinet, Final DB's / Capacitor Banks
- LV Cabling and all types of Electrical Installations, etc.
- Installation of Low current systems & Security system
- Lighting Controls for residential and commercial projects
- Lightning Protection
- Street Light Installations
- Installation of Low current systems & Security system And Commissioning
- Experts in 132/11KV Sub stations
- Experts in electrical works of Data centers, Industrial, Commercial and Residential projects.
- Installation of LV Panels
- Installation of Cold and Hot Water Networks
- Installation of Drainage, Rain and Sanitary Fixing works
- Pump Rooms, Storage Tanks and Pressurized Water Distribution Systems
- Grey Water Systems
- Grease Removal and Treatment
- Water Cooling Works
- Central Heating and Solar Water Systems
- Irrigation Works
- Solar Heating System Complete with Circulation Pump Sets.

FIRE SUPPRESSION

Solutions

- Compliance with Civil Defence Authority and standards for maximum safety.
- Regular inspections, maintenance, and testing to ensure system readiness and effectiveness.
- Design and installation of reliable fire suppression systems tailored to the specific needs and requirements of different facilities and buildings.
- Comprehensive assessment of the facility to determine the appropriate type of fire suppression system, considering factors such as occupancy type, layout, potential fire hazards, and local regulations.
- Integration of advanced fire detection and alarm systems to provide early warning and prompt response in case of a fire emergency.
- Compliance with industry regulations, codes, and standards to ensure maximum safety and effectiveness of the fire suppression system.
- Regular inspections, maintenance, and testing of fire suppression systems to ensure their readiness and effectiveness in case of a fire event.
- Collaboration with facility managers and building owners to develop comprehensive fire safety plans, including evacuation procedures and training for occupants.
- Emergency response services, including 24/7 support and rapid deployment of technicians to address any issues or malfunctions in the fire suppression system.
- Ongoing monitoring and maintenance programs to ensure the long-term reliability and performance of the fire suppression system.
- Peace of mind for building owners, occupants, and stakeholders, knowing that a reliable and effective fire suppression system is in place to protect life and property.

WE BUILD SYSTEMS THAT LAST

Annual Maintenance Contracts **FOR MEP, HVAC, AND FIRE SUPPRESSION SYSTEMS**

- Regular inspections, cleaning, and servicing to ensure optimal performance and prevent breakdowns.
- Prompt repairs and replacements of faulty components to minimize downtime.
- General building maintenance, including plumbing, electrical, and structural upkeep.
- Emergency response and 24/7 support to address maintenance issues promptly.

WE BUILD SYSTEMS THAT LAST

OIL AND GAS FIELD Services

We specialize in providing top-notch services to the oil and gas industry. Our experienced team is equipped to handle various aspects of oil and gas field operations, including drilling, exploration, production, and maintenance. With a focus on safety and efficiency, we deliver integrated solutions that optimize productivity and ensure smooth operations.

- **Maintenance and Repair:**

To ensure the continuous and reliable operation of oil and gas facilities, we offer comprehensive maintenance and repair services. Our team of skilled technicians and engineers is available to perform routine maintenance, inspections, and repairs on various equipment, including pumps, valves, pipelines, and control systems. We prioritize safety and adherence to industry standards in all maintenance activities.

- **Comprehensive Overhauling Services in the Oil and Gas Field:**

Arcmont Group offers specialized overhauling services for oil and gas equipment. Our team of experienced technicians is proficient in turning and bolting services, ensuring precision and reliability in equipment maintenance and refurbishment. Whether it's repairing or replacing worn-out components, our overhauling services help extend the lifespan and performance of your equipment, minimizing downtime and maximizing productivity.

Our overhauling services encompass a meticulous and systematic approach to equipment maintenance, ensuring that your assets operate at peak efficiency while minimizing downtime. With a focus on precision and reliability, we specialize in turning and bolting operations to address the unique needs of the oil and gas field.

- **Turning Services:**

Our skilled technicians utilize advanced machining techniques, such as grinding, milling, and lathe work, to perform precise turning operations. Whether it's restoring worn components or enhancing their functionality, we have the expertise to reshape and recondition critical equipment such as shafts, valves, and flanges. By maintaining precise tolerances and restoring original dimensions, our turning services contribute to the smooth and efficient operation of your equipment.

- **Bolting Services:**

At Arcmont Group, we understand the importance of reliable fasteners in the oil and gas industry. Our bolting services encompass thorough inspections, maintenance, and replacement of fasteners to ensure optimal performance and structural integrity. Our experienced technicians ensure that fasteners are correctly torqued, aligned, and compliant with industry standards. By addressing any issues related to bolts, nuts, studs, and connectors, we help prevent leaks, failures, and safety hazards.

**POWERING PROGRESS,

OIL AND GAS FIELD Services

EXPERTISE AND EXPERIENCE

PRECISION AND RELIABILITY

COMPREHENSIVE APPROACH

COMPLIANCE AND SAFETY

MINIMIZED DOWNTIME

Our efficient overhauling processes and quick turnaround times aim to minimize downtime and operational disruptions. We work diligently to complete the overhauling tasks promptly without compromising on quality.

At Arcmont Group, we are committed to delivering comprehensive overhauling services that enable you to maximize the reliability, efficiency, and safety of your oil and gas equipment. With our expertise, meticulous approach, and dedication to quality, we are your trusted partner for all your overhauling needs.

Contact us today to learn more about how our overhauling services can benefit your operations in the oil and gas field

Asset Integrity Management

Arcmont Group understands the critical importance of maintaining asset integrity in the oil and gas industry. We provide asset integrity management services to assess, monitor, and maintain the integrity of facilities, pipelines, and equipment. Our proactive approach helps mitigate risks, prevent failures, and ensure compliance with regulatory requirements.

Environmental and Safety Solutions

With a strong commitment to environmental sustainability and safety, we offer comprehensive solutions to address environmental and safety challenges in the oil and gas industry. Our services include environmental impact assessments, waste management, pollution control, and safety training programs. We help our clients operate in a responsible and sustainable manner while meeting regulatory standards.

Logistics and Supply Chain Management

Efficient logistics and supply chain management are crucial for successful oil and gas operations. Arcmont Group provides tailored logistics solutions, including procurement, inventory management, transportation, and customs clearance. We streamline the supply chain to ensure timely delivery of equipment, materials, and resources, optimizing operational efficiency and reducing downtime.

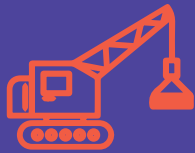

**POWERING PROGRESS,
ONE FIELD AT A TIME!**

HEAVY VEHICLE Rental Services

Arcmont Group offers a wide range of heavy vehicle rental services to cater to your construction, infrastructure, and logistical needs. With our comprehensive fleet of well-maintained and reliable heavy vehicles, you can efficiently and effectively complete your projects.

Explore our extensive selection of heavy vehicles available for rental:

**CRANES AND

INDUSTRIAL EQUIPMENT

Rental Services

Arcmont Group provides reliable industrial equipment rental services for a variety of applications. Whether you need construction machinery, power generators, or specialized equipment for industrial processes, we have a diverse inventory to meet your requirements. Our equipment is meticulously maintained and readily available to support your projects.

Arcmont Group offers a diverse range of equipment rental services tailored to meet the needs of various industries. Our well-maintained and reliable equipment is available for short-term and long-term rentals, providing cost-effective solutions for your specific project requirements. Explore the types of equipment rentals we offer for different industries:

Industrial Machinery:

Arcmont Group offers industrial machinery rentals for various manufacturing and production needs. This includes equipment such as generators, compressors, pumps, welding machines, industrial lifts, and more. Our industrial machinery rentals provide reliable power, air, and other essential utilities to keep your operations running smoothly.

Material Handling Equipment:

Efficient material handling is crucial for industries such as logistics, warehousing, and distribution. We provide a range of material handling equipment for rent, including forklifts, pallet jacks, reach trucks, stackers, and conveyor systems. Our material handling equipment rentals streamline your operations and enhance productivity.

Agricultural Equipment:

For the agricultural sector, we offer a variety of equipment rentals to support farming and crop management activities. This includes tractors, harvesters, sprayers, irrigation systems, and specialized agricultural machinery. Our agricultural equipment rentals help optimize farming operations and improve yield.

Energy and Power Equipment:

In the energy sector, we provide rentals of power generation equipment, including diesel generators, gas generators, and temporary power distribution systems. Our energy and power equipment rentals ensure uninterrupted power supply during maintenance, outages, or construction projects.

Environmental and Waste Management Equipment:

To address environmental concerns and waste management needs, we offer equipment rentals such as waste compactors, balers, shredders, and recycling systems. Our environmental equipment rentals enable efficient waste management and support sustainability initiatives.

Specialized Equipment:

Arcmont Group also offers rentals of specialized equipment for niche industries and unique applications. This includes equipment such as concrete pumps, aerial platforms, specialized cranes, testing equipment, and more. Our specialized equipment rentals cater to specific industry requirements and specialized tasks.

At Arcmont Group, we understand the diverse equipment needs of different industries. Our rental services provide you with access to high-quality equipment, flexible rental terms, and comprehensive customer support. Whether you require equipment for a short-term project or ongoing operations, we have the solutions to meet your industry-specific requirements.

**DRIVING PRODUCTIVITY,
EMPOWERING INDUSTRIES.**

FACILITY Management

Arcmont Group offers comprehensive facility management services designed to optimize the functionality, efficiency, and safety of your commercial, industrial, or residential properties. Our experienced facility management team ensures that your facilities operate smoothly, allowing you to focus on your core business activities. Explore our range of facility management services:

Asset Management

Efficient management of your assets is crucial to maximizing their lifespan and return on investment. Arcmont Group offers asset management services, including inventory tracking, lifecycle planning, and maintenance scheduling. By effectively managing your assets, we help you reduce costs, improve efficiency, and make informed decisions regarding replacements or upgrades.

Space Planning and Utilization

Optimizing your facility's space is essential for maximizing productivity and efficiency. Our facility management experts analyze your space requirements, evaluate current layouts, and provide strategic space planning solutions. We assist in designing efficient workflows, reconfiguring spaces, and improving space utilization to enhance productivity and create a conducive work environment.

Maintenance and Repairs

We provide scheduled maintenance and prompt repairs to keep your facilities in optimal condition. Our team conducts regular inspections, addresses maintenance needs, and handles repairs efficiently to minimize downtime and ensure the uninterrupted operation of your systems and equipment.

Health and Safety Compliance

Ensuring a safe and healthy environment for your occupants is paramount. Arcmont Group helps you navigate health and safety regulations, conducting risk assessments, implementing safety protocols, and providing training programs. We work to mitigate hazards, maintain compliance, and create a safe workplace for employees and visitors.

Energy Management and Sustainability

We understand the importance of energy efficiency and sustainability in facility management. Our experts conduct energy audits, identify areas for improvement, and implement energy management strategies. We help you reduce energy consumption, optimize systems, and implement sustainable practices to lower operating costs and minimize your environmental footprint.

Vendor Management

Managing multiple vendors and service providers can be time-consuming. Our facility management team streamlines the process by acting as a single point of contact for all your facility-related services. We handle vendor selection, contract management, and coordination to ensure seamless service delivery and cost-effective solutions.

Emergency Preparedness and Response

Being prepared for emergencies is crucial in maintaining business continuity and ensuring the safety of occupants. Arcmont Group assists in developing emergency preparedness plans, conducting drills, and implementing emergency response procedures. Our team is available 24/7 to respond to any emergency situations and minimize potential damages.

Environmental and Waste Management

Proper environmental and waste management practices are essential for regulatory compliance and sustainability. We help develop waste management programs, implement recycling initiatives, and ensure compliance with environmental regulations. Our facility management experts can guide you in adopting environmentally responsible practices that align with your organization's goals.

Pest Control Services

Arcmont Group offers professional pest control services to protect your property from unwanted pests and ensure a safe, healthy, and comfortable environment. Our dedicated team of pest control experts is equipped with the knowledge, skills, and tools to effectively identify, eliminate, and prevent pest infestations.

Landscaping

Enhance the beauty and functionality of your outdoor spaces with our professional landscaping services. Our team of landscape architects and horticulturists offers design, installation, and maintenance solutions tailored to your specific requirements. We create visually appealing landscapes, incorporating sustainable practices and utilizing the best materials and techniques.
